SESSION SUMMARY

VIEWER NUMBER: 032
DATE: 15 FEB 89
START TIME: 1005L
END TIME: 1045L

Site is a structure. The structure adjoins several other structures and faces a narrow street. There are structures on the other side of the street which are similar to those on the target side of the street.

All of the structures are one or two stories high and have wooden doors for entrances which are elevated from the street 12 - 24 inches; there are small steps leading to each of the doors. There are also arched doorways and the exterior of the buildings is a rough, white colored material (AOL like painted adobe). There are pieces of cloth hanging from pieces of wood up and down the street (AOL like awnings).

The street inclines up hill in the NE direction, and in the distance you can see something dark on the horizon (AOL like distant mountains). At a greater height, the site appears to be part of a city. There are a large number of structures for as far as I can see. There seems to be a waterfront, with slips and (AOL warehouses). There are raised points of terrain (rocky and dark) amongst the city. These points of terrain are higher than the surrounding structures.

See page 8 for a sketch of the target area.

STREET

S4k Narrow street buildings on both sides -- can't tell whats down the street or up the street. long buildings or a continuous Row of buildings. Arched doorways. & windows. White (AOL like painted Adobe). Cloth hanging from wood (AOL like - Awnings). Street goes up hill something dark against the horizon - far in the distance.

Arched plates
Arched Sounds

S4k Arches grouped together side by side. some larger than others — but architecturally aligned not just haphazzard.

if can observe am
— see lots of dwellings/structures — (like L.A.) (AOL) - city — can't tell how large - but not isolated - appears to be waterfront with large slips — and (who's ~~ass~~ archorias - AOL). There are raised points of terrain - rocky, dark - in and amongst the city/village - appears encased in high terrain — high in relation to structure/structures.

SECRET

WORKING PAPER DATE:

TASKER

1. PROJECT: 8905

2. ENCRYPTED COORDINATES: 166997/496912

3. BACKGROUND: A copy of overhead photography reveals what appears to be a series of three closely related buildings. One or more of these buildings may be of intelligence interest.

4. MISSION: Access and describe the structure(s) of interest and determine the following:

a. Describe and determine the structure(s) of interest.

b. Determine and describe the key purpose and the supporting function(s) and activities.

c. Determine and describe an event of intelligence significance, if any, associated with the structure(s).

d. Access a knowledgeable personality at the site and determine his awareness of the key purpose and supporting functions at the target site.
